

## HOW TO ORDER GENESYTE (NIPS)

### STEP 1: DOCTOR CONSULTATION

Doctor to discuss GeneSyte with patient and provide pre-test counselling, (Please refer to the Pre and Post-Test Counselling Fact Sheet as a guide).

Patient to be given a copy of the GeneSyte Patient Information Booklet.

### STEP 2: FILL IN THE FORMS

Doctor to complete and sign the Genea Prenatal Request Form.

Patient to complete and sign the Informed Consent for Non-Invasive Prenatal Screen for Fetal Chromosome Aneuploidy Disease form.

### STEP 3: BLOOD COLLECTION

#### Option 1: Blood collection through Genea

Doctor to give the patient the following:

1. GeneSyte Informed Patient Consent and Payment Form
2. Genea Prenatal Request Form
3. GeneSyte Patient Information Booklet

Patient to book a blood test appointment at Genea by calling **1300 652 687**.

Patient to present to their local Genea clinic or Pathology North for blood collection.

#### Option 2: Blood collection through referring doctor

To receive the GeneSyte blood collection kits, please fill in the doctor Resources Request Form provided in this kit.

Full set of written instructions will be provided in the blood collection kits.

### STEP 4: GENESYTE REPORT

Test results will be sent to the referring doctor within 5-7 working days from receipt of the blood sample.

Patients requiring post-test Genetic Counselling can access this complimentary service by calling Genea on **1300 652 687**.
