

Information for referrers

Step 1

The referral form below is to be completed and signed by the referrer.
Upon completion, we request that either the referrer or the patient email the referral form to ovulationtracking@genea.com.au or fax it to (02) 9094 2211.

Step 2

When the patient is ready to start, they should call our ovulation tracking coordinators at **1300 117 698** on days 1 to 3 of their period. Full instructions on the next steps will be provided to the patient at this time.

Step 3

The patient will progress through the ovulation tracking process before a summary of results is provided to the referrer at the end of the three cycles or earlier if pregnancy occurs.
Genea offers three tracking cycles to ensure the best possible chance of success.

Further information about the service can be found on our website at genea.com.au

***All mandatory fields must be completed.**

Regarding partner

Partner's name (if applicable):

Partner's mobile number:

Refer to

(Preferred Genea Fertility Specialist):

Requesting referrer details

*Requesting referrer's name, address and provider number:

Ovulation tracking cycle summary reports are sent to the referring doctor via email only. Please provide your email address:

I understand that if my patient does not achieve a positive pregnancy result after three cycles, they are offered further investigation through a consultation with a Genea Fertility Specialist. If a preferred Fertility Specialist is not requested above, one will be chosen in consultation with the patient.
